Type: **Services-Other**

This well regarded and reputable plumbing company has an extensive database of government, commercial and residential clients

Asking Price \$795,000 inc Stock

Established over 40 years ago, this well regarded and reputable plumbing company with an extensive database of government, commercial and residential clients is located on the Mornington Peninsula.

Servicing the Mornington Peninsula and surrounding areas, the current business is primarily focused on emergency and maintenance plumbing with the routine maintenance work providing consistency and more than enough ongoing work for the team.

The current owner is looking to retire. A suitably qualified buyer could continue to run the business as is or evolve the business to the next level. Whilst a full handover will be provided, the current owner will make himself available to the new owner to ensure the smoothest possible transition and continuity of the business.

Included in the sale is an extensive plant and equipment portfolio.

Lease terms on the office and factory are flexible to meet the requirements of the new owner.

The current team of highly experienced and knowledgeable staff comprises six qualified plumbers and two admin staff.

The business would be a great add on for an existing company to expand its services or for a plumbing business to expand its customer base and get into commercial routine maintenance.
