Restaurant with Commercial/Catering/Production Kitchen and Cool Room. Huge Opportunity to Up Revenue

Get ahold of this restaurant perfectly located in the bustling Eastern Suburbs of Sydney!

It has been operating since 2016, and is equipped with a large kitchen and spacious coolroom. A new owner can maximise this site as their production kitchen among others, which the owners have done before.

Boost revenue by adding catering to the services offered. The business' large kitchen and coolroom make this possible. All equipment are still in tip-top condition.

The establishment presently offers takeaway and has 30 seats inside and 4 outside. This restaurant is well-loved by the locals due to its great food and service, which is why their excellent reviews on Google and Uber Eats are no surprise at all.
