Unique franchised business

Provide leads to our brokers to share in up to 20% of our commission earned. We all have a network of friends, family, work colleagues and general acquaintances. They are often looking for a certain service, and unsure of who they should speak to. Especially something as important as finance, investing in property, or a broker who can sell their business.

When chatting, all you need to do is mention The Brokerage Connection and see if they would like an obligation-free information session with one of our professional brokers. Pass on their details to our head office, and if they proceed to a deal, then you earn up to 20% of the commission we earn. Some of these commissions are significant, meaning you can earn lots of money by helping connect to a service they need.
