Specialised Mining Advisory Firm Operating Worldwide

Independent, privately-owned consulting company servicing the global minerals industry. This well established advisory firm, started its operation in 2017, providing specialised consulting, professional reports and other services within the mining industry to private equity, legal, regulatory, and industry organisations worldwide.

The business presents a strong growth trend and doubled its revenue since 2020 with current yearly sales in excess of a million dollar and great profitability. Now for sale, we are seeking interested parties for the acquisition of this successful advisory firm.

Highlights

- Diversified income streams with ample range of services across the mining industry
- Worldwide trade capacity with key connections and clients all over the world
- Established network of contractors and experienced, well established internal team
- Strong clients database with over 700 active contacts
- Great market positioning thanks to the reports quality, company accountability and time efficiency

Owners are motivated and willing to offer all training and support required to ensure a smooth transition. To discover more about this opportunity please enquire online or call directly Matteo Melis at 0433 719 112.
