The area's specializing in

The company excels in delivering high-quality installations with precision and expertise.

Their comprehensive range of services includes various civil construction projects, such as road maintenance, and dam desilting, to name a few. With a proven track record of successfully handling projects of different scales.

In the mining sector, they specialize in services related to gas draining pipelines, and other diverse mining operations.

Their proficiency extends to many areas of expertise where they have experience in both open-cut and underground infrastructure for civil, mining, and renewable sectors.

Additionally, the company offers other services, in mine site-compliant and civil earthmoving.

#### Who Should Consider This Opportunity

- Strategic fit for acquisition buyers and independent entrants, the business presents an excellent opportunity for acquisition-focused buyers who aim to expand their operations in Central Queensland. The business's strong presence in the region, established name, experienced team, and vendor mine numbers make it an ideal acquisition target.
- Existing Companies aiming to expand their operations or diversify their services.
- Diversifying investors looking for a well-established business with a solid track record and impressive assets.
