Highly Profitable Internet Retail & Wholesale Business For Sale

Owner Earnings \$423k - Asking Price \$850,000 Plus SAV

This is an online Retail & Wholesale business specializing in Anime Products. It has been operating for 20 years. It has outgrown the Capital capacity of it's current owner. The growth in the last few years has been massive and continues to be so. The current owner is reluctantly selling only because he does not have the financial capacity to give the business what it needs to continue this growth. He is open to selling the business totally and negotiating a suitable transition period to allow the new owner to understand the business and to take control. He is also open to taking on a passive investor by selling shares in the trading company and staying on to manage business's growth into the future.

Benefits include:

- * Excellent Return on Investment.
- * Barely any competition for the products sold by this business.
- * Huge growth potential. This can be captured by further injection of capital.
- * Very Good profits with potential to improve further by capturing the available growth potential.
- * Current owner operates 5.5 days a week currently. With overseas growth, the business can be operating 7 days.
- * Good warehouse lease available.
- * No industry experience required. Training can be provided to someone who is prepared to learn.
- * Dedicated and energetic owner will certainly improve. Loads of potential.
- * The business can be operated from anywhere with transport infrastructure.
- * Good trained staff who are willing to stay
- * All equipment is included in the sale.

This business is suitable for smart capable owner/manager willing to work hard to maximize it's full potential. A skilled owner with business flair will continue to grow this business and reap greater rewards. If further capital is made available, the growth potential is huge.
