

CCTV Repair And Support Business for Sale Sydney

For Sale

Location: **Sydney**
Asking: **\$180,000**
Type: **Services-Other**

UNDER CONTRACT - Authorised Australian Repair And Support Centre For Leading CCTV Brands Sydney.

Originally established in 1971 with current ownership 29 years old.

The team comprises highly skilled Technicians and Engineers, supported by a professional Management team dedicated to providing quality workmanship and committed support. Their Service Contracts are invaluable, making replacement costly due to the expense of re-training.

Anticipated growth in future workload is imminent due to aging equipment in the field, the record volume of new CCTV sales, alongside growing interest from other manufacturers.

The Repair and Service Centre specializes in a range of products:

1. Security equipment like cameras and DVRs/NVRs tailored for larger commercial and government clients.
2. Exclusive certified Australian service and repair centre for leading CCTV brands.
3. Repair services for personal consumer display equipment such as home/commercial/data projectors, venue projectors and LCD/LED TVs.

As the owner seeks to transition into retirement, an opportunity for new leadership emerges.
