### Rehabilitation Focused Exercise Physiology Business

Fully staffed with highly qualified and experienced allied health professionals in rehabilitation, health and fitness. This business encompasses services relating to the rehabilitation of injuries, disabilities and chronic health conditions, return to work therapy and specialised training for athletes and all exercise requirements in between.

Long established with a strong referral network from General Practitioner's, corporates, insurance companies, Physiotherapists, Osteopaths, Chiropractors, Surgeons and other health and medical entities.

It holds a long-term lease with a very reasonable base rent. The "nearly new" equipment is high end, functional and specialised training equipment.

Highly profitable, and well established. It has an unmatched reputation in the region for comprehensive professional care and rehabilitation. It has large and spacious rehab/training areas, with separate private treating rooms and space for additional services.

This business would be ideal for a group of allied health care professionals looking to own a practice or for a corporate health organisation looking to expand. Be quick as businesses in this industry always sell as soon as they are listed.
