Import and Installation Business for Sale

This highly profitable Queensland based import and installation firm with a national footprint generates circa \$14.5M(and growing) of revenue with very healthy margins. The business has been established 35 years, part time working owner has strong management team, processes, procedures, systems and is an industry leader in its field.

Almost all of their product range is exclusive to Australia, with exciting new product just landed, giving them an advantage in their field and clearly delivers a point of difference in the market. In addition, strong barriers of entry making duplication of this business near on impossible and no threat with the emergence of artificial intelligence.

The business is very well placed with infrastructure funding growing year on year and ideally positioned to take advantage of the planned 2032 Olympics, their exclusive products will be in high demand.
