Relocatable Import wholesale business that is easy to run with existing high-quality products that are manufactured in China from their own design specifications

- All the research, designs, negotiations with China manufacturers and systems have been developed by the current owner, for a well organised profitable business

- Established relationships in China with Quality Control & Export Agents

- Immediately scalable with plenty of opportunity to grow the business - as currently operated by part-time owner 10-15 hour/week

- Great cash flow \$\$ lifestyle income stream generated by staple (non-fashion) items.

- Quality Designs After years of trial and error and overseas research the owner has designed their products to be both durable and high quality

- Staple Product line/s - No need to follow the fashion trends and fads

- Warehouse Prices - Due to design and research their products are some of the best value and quality on the market

- Generous margins - The sale price for each item allows for a good profit margin but keeps the product at a very competitive price
