Clients Serviced Remotely

Exciting Opportunity for Aspiring Accountants!

Are you ready to take the reins of your own accounting practice? Look no further!

Servicing clients remotely, this practice offers the flexibility to operate from anywhere, making it an ideal opportunity for accountants seeking independence and growth. The practice currently operates out of a home office on the South Coast of NSW.

With service levels in the local area falling short, there's ample room for expansion through organic growth via client referrals. Due to the owner transitioning into retirement, they have not been able to take full advantage of these opportunities, even having to turn away client in some cases.

There is a great mix of loyal clients with 82% of practice revenue generated from business clients. They would be happy to stay under the new ownership and continue to receive the great service that they are accustomed to.

Whether you're an aspiring accountant looking to launch your practice or an existing firm seeking expansion, this practice offers a promising venture in a thriving industry.

Contact us today for more information about this fantastic opportunity.
