Highly Profitable Psychology Centre

Established in 1999 this psychology practice has been dedicated to offering premium psychological care for individuals of all ages and stages of life. This centre is committed to collaborative therapy and the vital therapeutic alliance between client and clinician.

Over the years, the practice has evolved into a very well-respected Psychology Centre, attracting additional clinicians who share the same passion for holistic care. The brand is trademarked within the healthcare sector, symbolizing the dedication to excellence.

Unlike many private psychology practices, this practise operates on a room rental and reception services model, ensuring clear lines of responsibility and ethics. The vendor believes in empowering clients to choose their preferred clinician, while their collaborative approach enhances the sustainability of the practice.

Recognising the need for succession planning, the vendor is seeking a dedicated individual or group to take over the reins of this profitable business. This presents a unique opportunity for the right buyer to continue their legacy of quality care.

Key Features:

- * Established in 1999
- * Trademarked brand in the healthcare sector.
- * Room rental and reception services model for clear responsibility.
- * Collaborative approach to client care.
- * Ethical practices in line with industry standards.
- * Prime location and loyal client base
- * Strong referral network

Whether you're an experienced clinician looking to step into practice ownership or an investor seeking a lucrative opportunity in the healthcare sector, this Psychology Centre offers a solid foundation for growth and success.
