Consultants Since 1980'S Sydney

A multi-disciplinary practice is ideally located in a strategic growth region of Greater Sydney. As Engineers, Surveying and Development Consultants they provide the most efficient and strategic solutions in subdivision design, including roads & stormwater drainage and reflecting all infrastructure.

The Consultancy offers specialisation in services such as Detail and Level Surveys, House and Construction Surveys, Roads and Drainage Design, Stormwater Detention Design, Costing of proposed projects and Liaison with the relevant Authorities.

The personal experience of the owner/director extends over many years in the disciplines of Surveying and Civil Engineering and varies through concepts, design and supervision of projects.

The current organisation has qualified and experienced staff consisting of Civil Engineers, Surveyors, as well as Drafting and ancillary personnel.

They use the most up-to-date and sophisticated survey equipment and CAD computing facilities.
