Established Sheet Metal Workshop for Sale -South West Sydney CSBB7483

This is an opportunity to acquire a well-established sheet metal workshop in South West Sydney, close to the M5. This business has been specialising in the fabrication of air conditioning ducting for both commercial and residential projects for over 20 years.

With a solid foundation and a strong reputation, the workshop generates approximately \$1.5 million in annual revenue, delivering a nett return to the owner of around \$300,000 per year.

Key Highlights:

- * Established History: Operating successfully for over two decades.
- * Revenue: Generates approximately \$1.5 million annually.
- * Profitability: Nett return to the owner of around \$300,000 per year.
- * Fully Equipped: State-of-the-art machinery and tools, ready for immediate operation.
- * Reputation: Strong industry reputation for high-quality products and services.
- * Skilled Team: Experienced staff dedicated to maintaining high standards.

The workshop serves a steady stream of clients thanks to its consistent delivery of high-quality products and services.

In addition to its operational strengths, the business boasts a team of skilled and experienced staff who are dedicated to maintaining the high standards the workshop is known for.

This business is ideally suited for someone with experience in sheet metal fabrication or HVAC systems, who can maintain and manage its current operations.

Handover assistance and training to be offered by retiring owner.

FULL PRICE - \$445,000
