Australian Developed Termite Protection - 50% Return!

Step into this high-profit, low-effort business opportunity, a unique Termite Protection Franchise based in Queensland with net profits exceeding 50%. This business is perfect for an owner-operator, or first-time business owner, looking for a lucrative venture with minimal hassle trading only 5 days a week.

Operating from a home office with minimal stock storage needs, this Franchise offers a unique Australian product that provides the most effective pre-construction termite protection barrier available for new homes and buildings. As the sole supplier of this innovative termite barrier an owner has the satisfaction of using a product that has a positive impact on the environment - it's a completely poison-free, low-maintenance solution.

Key benefits of this business include low operating costs, minimal owner involvement, and a large client database of approximately 18,000 customers. Full training is provided by the vendor and franchisor, allowing a new owner to 'LEARN AND EARN' on the job to obtain the required licenses in just 2-4 weeks.

This is an essential service where termite prevention compliance is a requirement for both residential and commercial premises in Queensland, and it must be used for Government-funded projects such as hospitals and schools. With expansion opportunities on the horizon, this business is ideal for a first-time owner-operator looking for growth and success.

Don't miss out on this opportunity to secure a profitable business in Queensland. Contact us now to learn more and take the first step towards a prosperous future!
