Custom Engineering. Established 35 years

JUST TRAILERS has a long history of producing quality Australian engineered trailers for clients in Government, Councils, Police and Private industry.

This is an established WALK IN - WALK OUT - TURN KEY opportunity for a skilled fabricator to acquire clients in a niche business for custom builds in a high margin business. It is an opportunity for a young entrepreneur with skills and foresight to build their financial security.

Just Trailers would be ideal for a young couple with fabrication engineering and administration experience, employing 3 - 4 skilled staff.

The 900sqm workshop is in a busy southside industrial area. The building has functional multiple access doors and secure storage, with good street visibility for outside stock display and the site is above flood levels. The business has occupied this site for over 20 years.

Just trailers have large industry clients supplying compressors and generators who book repeat orders for manufacturing. They also provide routine fleet maintenance, insurance work and safety inspections.

The Brand and Business Name carries a valuable reputation for Australian built quality 'Old School Real Steel Built to Last' products over 35 years. Their established customers appreciate quality engineering and are willing to pay for it.

- * Google Rating 4.7
- * Facebook Reviews 100% recommended
- * Premises are ideal for this Industry
- * Simple but Robust Designs
- * Resold through stockists in Dalby, Kingaroy and Inverell
