Established Electrical Services Group (100% Projects) Premier Industry Opportunity

An exceptional opportunity is now available to acquire a well-established electrical services group with a distinguished 30-year track record in Southeast Queensland.

This business, offered for sale for the first time, has built a strong reputation for excellence, delivering comprehensive electrical solutions across a diverse range of sectors.

The company services a wide array of clients, undertaking new construction projects ranging from fully designed systems to design-and-construct solutions. With an extensive portfolio that includes nursing homes, office buildings, high-density residential developments, townhouses, private homes, factories, schools, and shopping centres, the business has demonstrated its versatility and expertise in meeting the evolving needs of the market. Secured contracts for \$15 million plus as future projections.

Operational efficiency is a hallmark of this enterprise, with well-established automated systems ensuring seamless project management and service delivery. A highly skilled and experienced team is in place, providing a solid foundation for continued success. The current owner, who oversees operations alongside a dedicated management team, is now looking to retire, presenting a unique opportunity for new ownership to leverage the company's strong industry position.

This acquisition represents an ideal strategic expansion for an existing electrical services provider seeking to extend its geographic reach or enhance its service offerings. It is equally suited for private equity investors looking to enter a thriving sector with substantial growth potential. With Queensland experiencing unprecedented infrastructure investment in the lead-up to the Olympic Games, the demand for electrical services is at an all-time high, making this a prime opportunity to secure a profitable and well-regarded business in a booming market.
