### Profitable / Solid Hydraulic Specialists Business North Queensland

2024 EBITDA \$495,594 / 2025 trending to double!!

Are you ready to take the reins of a successful hydraulic service business with strong profits and growth with further potential? Look no further than this well-established operation in Queensland.

For over 13 years, this business has been providing a top-notch hydraulic hose and fittings repair service to clients in civil, mining, and agriculture industries. With a reputation for their expertise, competitive pricing, and excellent customer service, this business stands out as a leader in the industry.

Equipped with mobile service vehicles, specialist tools, and together with a skilled team, this business offers project planning, diagnostics, repairs, and 24/7 emergency breakdown services. The fully stocked warehouse and online sales platform provide additional revenue streams and expansion potential.

Don't miss this opportunity to step into a successful business with solid industry relationships and a proven track record. Full training will be provided, making this a seamless transition for the new owner. No particular skills required, the job can be learned on the tools.

Take the next step and make this profitable hydraulic service business yours today!
