Thriving Business

Immerse yourself in the world of water irrigation services with this exceptional business opportunity located in Queensland. Boasting a revenue of \$3,655,203 in 2024, this independently owned business is now on the market, offering a lucrative income and an idyllic work/play lifestyle in a picturesque location.

Specialising in Pumps, Irrigation, Plumbing, and Filtration, this business caters to a diverse range of clients in the domestic, commercial and agricultural sectors. Conveniently situated on a main street in a standalone building, this business offers a perfect work-life balance with operations running smoothly five days a week.

With no prior industry experience required for a new owner, this business presents a unique opportunity for someone with good business acumen to step into a thriving enterprise. The dedicated team of long-term employees handles day-to-day operations, while the current owner is willing to stay on board to ensure a seamless transition going forward.

Key services offered include irrigation systems, pump systems, rainwater harvesting, firefighting equipment, filtration, solar-powered pump solutions, and more. Additionally, a significant secondary income stream is generated through the retail of parts and equipment related to water systems maintenance.

Don't let this opportunity flow away - seize the chance to own a successful business with growth potential and valuable resources at your fingertips. Enquire today and take the next step towards business ownership!

Price: \$1,000,000 + Stock (negotiable)
