Archive Management System Business QLD Based - 5820

Well established archive management system business, utilizing box products, operating since 1997. A proven and successful business offering market leadership with little competition is a niche sector of the market that most business need.

This business offers the smartest and most space-efficient onsite archive storage systems available in the market delivering an end-to-end archive tidy-up service. A business that is trusted and held in high regard by schools, government departments, hospitals, large corporations, and small business across the whole of Australia.

This is a very simple business to run, without specific skill set or industry knowledge requirements and can be relocated or run anywhere with access to freight providers. It uses integrated technology to simplify operations, with all contact to customers and prospective customers tracked in online CMS.

Key factors:

- Trading since 1997, current ownership since January 2024
- Great opportunity to generate profits
- I owner operator, with teams hired on a project basis
- Warehouse available in Brisbane with a rent of \$3,712 pcm
- Can be easily relocated.
- Huge opportunity to expand into digital scanning services
- Mostly organic referral based work
- Grow through marketing and advertising this core business product

This business offers growth opportunities and is a great life style business.

Well priced at \$50,000 WIWO
