We're an award-winning business grooming men for greatness for over 47 years. With high-profile clients like Daniel Ricciardo through our doors, Face of Man is a Sydney icon. And now, we're building something that's never been done before: a one-stop destination for men, featuring everything from hot towel shaves, facials, and laser treatments to cutting-edge wellness. This is the tip of the iceberg, and we're inviting the right people to participate. Why not join us and be part of something truly groundbreaking?

We recently implemented this same concept with a barber from Truefitt & Hill, who had only ever worked as an employee. Within seven months, he built a thriving business and had to hire two more fully booked barbers. We've collaborated and supported each other's success by working closely and accessing our database. With the right space and strong brand alignment, you can leverage our experience to launch and grow your wellness business faster than you ever thought possible. Have the security of being under the guidance of a very established business without the franchise fees, and there will be brand guidelines you will need to follow, and it can only be for men! It's essential Face of Wellness.
