

For Sale

Location: **Sydney**
Asking: **\$135,000 including all stock and a vehicle**
Type: **Wholesale/Distribution**

This could be just the business you are looking for.

Do you love tooling and hardware, or are you a tradesperson looking to finally get off the tools? If you are, this could be just the business you are looking for.

Established for over 40 years, this business sells a wide range of industrial tooling, equipment and consumables. Items sold include bearings and transmission products, fittings, industrial gasses, compressors, pressure cleaners, lubricants, engineering supplies and much more.

Over the years, the business has built up a substantial list of repeat customers. These are a mix of trades, engineering, transport, manufacturing and other related businesses. Customers are broadly spread with the largest accounting for just 11.1% of sales. As a result, the business is not dependent on any particular customer.

This business operates from a factory unit in Western Sydney. The unit includes a warehouse area, an office area and a retail showroom. There is on-site parking right in front of the business, providing convenience and easy access for visiting customers.

Trading is Monday to Friday only. As a result, you will be able to enjoy a healthy work and lifestyle balance. Whilst a technical mindset would be helpful, industry experience is not essential as the owner is happy to train you.

For the 2024 financial year, this business achieved a profit to the owner operator of \$86,000.
