Profitable SaaS Opportunity | Remote, Low Cost, 300+ Active Users Across Industries

Own a business that generates recurring income, requires no physical assets, and can be managed from anywhere with just a browser and internet connection!

This software-as-a-service (SaaS) business was built to modernise operations for service-based industries, reducing paperwork and improving efficiency. With over \$500,000 already invested in development, the platform has been built to a high standard with robust functionality and scalability.

Launched in 2017 and opened to the market in 2018, the platform has steadily grown to serve 337 active users across multiple businesses. Designed to streamline scheduling, payroll, compliance, and team management, it continues to expand with new features most recently dynamic forms, shifts, and project modules.

Key Highlights

- * Cloud-based SaaS model with recurring subscription revenue
- * Remote operation; only a browser and internet needed
- * Low overheads; no physical assets required
- * Proven track record with 337 active users
- * \$500,000 invested in development to date
- * Global expansion potential into the US, UK, NZ, Ireland, and Canada
- * Recent upgrades adding dynamic forms, shifts, and projects
- * Includes customer database, documented policies, and training support

With global scalability, minimal overheads, and no requirement for on-site staff, this is an ideal opportunity for someone seeking a business that combines stability with growth potential. The groundwork has been laid, and the next owner can focus on scaling subscriptions further in Australia and abroad.
