Profitable Civil and Architectural Consultancy in Regional Victoria

An exceptional opportunity to acquire a long-established and highly respected engineering, architectural, and property development consultancy based in Regional Victoria. The firm has built a strong reputation for delivering practical, cost effective, and high quality design solutions across residential, commercial, and industrial projects.

Operating at the intersection of civil engineering, architectural design, surveying, and project management, the company partners with developers, councils, and government authorities to plan and deliver projects that continue to shape the region's growth. Its technical capability, consistent performance, and deep local relationships have positioned it as a trusted name in property development and infrastructure design.

Highlights

- Consistent annual revenue exceeding \$2 million (FY24: \$2.16m; FY25: \$2.29m)
- Averaged EBITDA(FY24 and FY25) of~\$550,000, excluding Directors' salaries
- Long-standing relationships with developers, councils, and government departments
- Strong track record in civil, architectural, and subdivision design projects
- Lean operating structure with reliable profitability and low overheads
- Directors committed to remain post-sale, ensuring seamless transition and continuity

With its established client base, diversified expertise, and respected regional presence, this consultancy presents a rare opportunity to acquire a profitable and well-structured professional services firm.

The sale includes full support and ongoing involvement from both Directors to ensure a smooth handover of client relationships, technical knowledge, and operational processes, safeguarding the firm's market position and reputation under new ownership.
