High-Performing Metal Fabrication Business with a Proven Track Record

Step into a powerful, long-standing fabrication operation located in the industrial hub of Newcastle's Lower Hunter Valley. With 15 years of success, this business is renowned for its exceptional workmanship, reliability, and capability across a wide range of metal fabrication services.

Specialising in custom fabrication across carbon steel, stainless steel, and aluminum along with certified pressure welding expertise this operation is the go-to partner for diverse industries that demand quality and precision.

Why This Opportunity Stands Out

Strong, consistent profitability backed by long-term performance

Full-spectrum fabrication capabilities across carbon, stainless, and aluminium

Pressure welding specialists with recognised certifications and compliance

Skilled, dedicated workforce of qualified tradespeople and support staff included

Purpose-built high-clearance facility featuring an internal roof crane available with the business or separately

Established client base & repeat contracts with clear pathways for growth and expansion

This is a turnkey opportunity for investors, industry operators, or hands-on buyers seeking a respected, high-performing enterprise in one of the Hunter region's premier industrial locations.
