Asking: **\$100,000**
Type: **Franchise Resale / Health/Beauty**

Fitstop North Toowoomba, Ideal Hands-On Owner Operator Opportunity

Fitstop North Toowoomba presents an excellent opportunity to acquire a well-established fitness studio operating under management. The business benefits from an existing membership base, experienced casual staff, and structured systems that allow for a smooth change of ownership.

Based on its current financial performance, this business would ideally suit a hands-on owner-operator looking to be actively involved in day-to-day operations, build stronger member engagement, and grow the membership base through community connection and on-floor presence. The model also provides scope for improved margins through increased owner involvement.

The studio offers approximately 245 sqm of training space, complemented by an office, creche, and bathroom facilities of approximately 100 sqm. The Fitstop franchise operates on a data-led model, supported by the Fitstop app, enabling informed decision-making around member engagement, programming, and performance tracking.

This is an opportunity to step into a nationally recognised brand with a proven training system and strong member following.
