

For Sale

Location: **Sydney**
Asking: **\$590,000 + SAV**
Type: **Manufacturing**

NEW LISTING - PUSH PLATE & KICK PLATE FABRICATION.

A small manufacturing operation providing stainless steel kick plate & push plate fabrication.

Kick plates are a thin metal sheet (often stainless steel, brass or aluminium) installed at the bottom of doors to protect them from scuffs or impact. They are used in commercial buildings, hospitals, schools & homes.

This offers an opportunity for an established business to diversify into a highly profitable, ready-made operation with minimal integration risk and with an established customer base.

Ideally suited to businesses in metalworking, fabrication, door & hardware supply or commercial fit-out services.

Alternatively, this opportunity might suit a skilled sole trader or semi-retired tradesperson seeking hands-on work with manageable operations, flexible scheduling & a steady flow of orders.

Key Features;

- * Easy transition with the existing client base.
- * Well established market position.
- * Large level of repeat business.
- * Significant growth potential.
- * Owner will offer ongoing support for extended period if required.
- * "Destination" site for their products & services

What You Need to Know;

- * Turnover; \$463,675 (2025)
- * Adjusted Nett Profit; \$235,000 (approx.)
- * Asking Price; \$590,000+SAV
