Mowers Utility Vehicles Brush Cutters Generators Small Engines

Asking \$295,000 + Stock (\$200k variable)

This is an exceptionally well-run and well-set-up business.

There is an excellent range of stock, a large, well-set-out mechanical workshop, a good storage room, and terrific roadside exposure with displays.

2025 turnover is over \$1.3 million. Combined owners' (husband and wife) adjusted income is over \$230,000.

The business software provides a complete breakdown of clients, work completed, and sales. The business operates to a forecasted budget.

The husband handles mechanical work, sales, servicing, and some deliveries. The wife manages showroom sales and various other tasks.

For a buyer, both the husband and wife are happy to stay on for at least a six-month period (full-time or on agreed transitional arrangements).

This demonstrates complete confidence by the owners that the business will continue to grow a rare show of ethics.

This business offers a strong range of products, including:

Lawn mowers (push and ride-on)

Utility vehicles

Generators

Log splitters

Brush cutters

Chainsaws

The website is new and modern, easy to navigate, and provides very good information.

This is a business that has grown rapidly, having started just three years ago. Growth from 2024 to 2025 exceeded 50%.

There is further budgeted growth this year, and performance to date is on target.

The business is located in a rural town and administrative centre in Southeast Queensland, approximately 130140 km southwest of Brisbane.

Situated in the Southern Downs Region on the banks of the Condamine River, it lies west of the Great Dividing Range and is recognised as a major hub for the agricultural region of the Darling Downs.

This would be an excellent add-on to another business with a manager in place, or ideal for an owner-manager or owner-operator.

A detailed profile of the business will be provided after an online confidentiality agreement is completed.
