Auto Electrical, Sales, Diagnostics, & Repairs AND Powersports (Can-Am) Sales & Service Business

High-Demand Trade | Multiple Revenue Streams | Positioned for EV & Off-Road Growth

If you're a hands-on operator, auto electrician, or mechanically minded buyer looking to step into a high-demand, future-focused industry, this is a rare opportunity to acquire a well-established and market leading automotive electrical and powersports business with strong foundations and multiple income streams.

Combining auto electrical diagnostics & repair & electrical accessories sales and fitment along with a thriving powersports (incorporating BRP's Can-Am range of Ski-do, Sea-do, SSV and Quad bikes) sales and service division, this business is uniquely positioned to benefit from both the evolution of modern vehicles and the continued growth in recreational and rural agricultural equipment markets.

Business Highlights

- * Established auto electrical workshop with strong local reputation
- * Integrated powersports sales & service operation, including Can-Am units
- * Diverse revenue streams:
 - o Auto electrical & diagnostics
 - o Battery systems & fit-outs
 - o Fault finding & repairs
 - o Accessories sales, fitting & service
 - o Powersports sales, servicing, parts & accessories
 - o Modern showroom & parts / accessories stores
- * Consistent trade from:
 - o Local vehicle owners (both commercial & private)
 - o Transport fleet operators
 - o Agricultural sector
 - o Recreational / off-road customers
- * Well-equipped, multi-bay workshop with specialised diagnostic tools & equipment
- * Strong base of repeat clients and word-of-mouth referrals

* Attractive lease with options available for future business security

Positioned for the Future

Modern vehicles are becoming increasingly reliant on electrical systems, diagnostics, and onboard technology, placing auto electricians at the centre of the automotive industry.

At the same time, demand for off-road vehicles, side-by-sides, and recreational powersports equipment continues to grow across regional and lifestyle markets.

This business sits at the intersection of both trends.

Growth Opportunities

Significant upside exists for a motivated operator:

- * Expand EV & hybrid servicing capability
- * Increase focus on advanced diagnostics & programming
- * Grow the powersports retail footprint (new & used units)
- * Additional mobile auto electrical service vehicles
- * Secure additional fleet, agricultural, and commercial contracts
- * Extend trading hours to capture unmet demand

The foundations are in place this is a business ready to be taken to the next level.

Ideal Buyer

- * Qualified auto electrician or mechanic looking to step into ownership
 - * Existing workshop owner seeking to expand into electrical & powersports
 - * Hands-on operator wanting a diverse, scalable business
 - * Lifestyle buyer attracted to regional / recreational market exposure
-

Why This Opportunity Stands Out

- * Operates in a skills-based industry with strong demand
 - * Multiple income streams reduce reliance on any single segment
 - * Benefits from both essential services (auto electrical) and lifestyle spending (powersports)
 - * Positioned to capitalise on EV transition and advanced vehicle systems
-

Price: \$940,000 (GST Exempt "Going Concern") plus SAV
