Premium Inner-City Dog Daycare & Grooming Business | Loyal Client Base | Major Growth Potential

Australia is one of the most pet-obsessed countries in the world. More than 70% of households own a pet, and national spending on pets now exceeds \$30 billion annually, making premium pet services one of the fastest-growing consumer sectors.

Positioned in a high-affluence inner-city catchment, this highly regarded dog daycare and grooming business has built an outstanding reputation over many years of operation. Loyal customers often describe the experience as "Disneyland for Dogs," combining structured daycare programs with specialist grooming services that command a premium position in the market.

Built on strong client relationships, professional systems and consistent service quality, the business operates with documented procedures, operational manuals and a sophisticated POS and booking platform, allowing a seamless transition for a new owner.

The current owners have successfully navigated market shifts, infrastructure upgrades and broader economic challenges while maintaining consistent growth, delivering a 10% revenue increase in the most recent trading period. Today the business operates as a trusted community institution with an exceptionally loyal client base, with many customers returning weekly for well over a decade.

Recent improvements to the premises allow immediate expansion. Daycare and grooming capacity could be increased by 30-50%, while the retail category remains largely untapped, currently representing only around 1% of turnover.

With Australia's pet sector continuing to expand rapidly, the business is positioned within one of the country's most resilient and fastest-growing consumer markets.

The sale is prompted by a planned lifestyle change, with a comprehensive two-week training and handover period included to ensure operational continuity.

Owning a business like this also offers a rare lifestyle opportunity working within a passionate community of dog owners while operating a profitable and well-established service business.
