High Margin Geotechnical Contractor

\$5M Revenue | Govt & Infrastructure Work

Established, profitable geotechnical and civil contracting business operating in a specialised niche with consistent demand and strong barriers to entry.

This is not a general civil contractor. The business focuses on technical, high-value work including slope stabilisation, rockfall protection, rope access and ground engineering - the type of work that requires capability, not just equipment.

Key Points

- * Circa \$5M annual revenue
- * Consistent work across government, infrastructure and private clients
- * Proven delivery in specialised geotechnical projects
- * Strong reputation in a niche market
- * Experienced team and systems in place
- * Established plant & equipment supporting operations
- * Ongoing pipeline of infrastructure-related work
- * Includes land and buildings

Why Buyers Will Look at This

- * Niche capability in geotechnical / stabilisation work
- * Exposure to infrastructure and government spend
- * Barriers to entry limit competition
- * Repeat and ongoing work profile
- * Scalable within existing civil or construction groups
- * This is the type of business strategic buyers look for when expanding capability or entering the sector.
