### Transport & Logistics Business For Sale MAS259

On offer we have a highly profitable transport business established for 13 years, currently operating as a major steel supplier in the Sydney metropolitan area with the flexibility to operate from anywhere to suit the new owner.

The business services one of Australia's largest steel supply chains, with approximately 95% of work consisting of direct-to-customer steel deliveries.

The remaining 5% includes mixed concrete panels and crane movements, adding diversification to the operation.

It comes with a fleet of 11 well-maintained vehicles valued at up to \$500,000, along with a reliable and experienced team of drivers who are all willing to stay on, ensuring a seamless transition.

The current owner is moving on to other interests, creating an excellent opportunity to step into a proven, established operation with strong ongoing demand.
