

For Sale

Location: **Sydney**
Asking: **Expressions of interest**
Type: **Services-Other**

Electrical Services Business for Sale

This electrical contracting business is based in Sydney's Outer Western Suburbs. It provides a broad range of electrical services, including lighting installations, test and tag services, switchboard upgrades, installing security systems, preventative maintenance, safety audits and electrical inspections, ceiling and exhaust fan installations, installing home automation systems and more.

The business works with residential, commercial and industrial customers. B2B customers are from a wide range of sectors, including schools, the construction industry, government, real estate, etc. The largest customer operates a significant number of sites, providing a good stream of ongoing work. Most customers are repeat customers.

This business is managed from a home office. It is primarily mobile in nature, and carries out work at client sites across the Western Sydney and Penrith regions. Clients do not generally come to the home office. This means that the business is not particularly location dependent and should be relatively easy to relocate to elsewhere within the region.

For the 2025 financial year, this business achieved total sales of just over \$1 million. Profit to an owner-operator was \$220,000 for the same period.

A late model utility vehicle and equipment are included with the sale.

This business could be an excellent purchase for a licensed electrician seeking to establish or expand their own business. It could also be a great opportunity for an existing electrical contracting firm to grow through acquisition.

This business is being offered for sale by expressions of interest - make an offer! Offers are to be received by 23 May 2026.

To protect confidentiality, the location of the business is indicative only. Photos are stock photos and are not of the actual business. The vendor and agent reserve the right to extend or reduce the expression of interest period, to negotiate with leading bidders, to accept an offer prior to the expiry of
