Type: **Retail Other**

Signs and safety stickers business

Built on nearly 50 years of trusted service, Game Signs is highly regarded in the supply & application of safety signs, compliance stickers and laser engraved industrial labelling solutions servicing Newcastle, the Hunter Valley and beyond.

With long-standing relationships across major manufacturing and industrial clients, the business enjoys strong recurring revenue and consistent profitability, underpinned by ongoing demand from transport, construction, mining and heavy industry sectors.

A major strength of the operation is its extensive library of pre-designed sticker kits for high-volume truck signage, plant machinery and equipment variations - creating repeat business and streamlined production efficiencies. New owners should be skilled up to really hit the road running, as there is months of scheduled work currently on the books.

The sale includes all required plant, printing and production equipment, providing a turnkey opportunity for a new owner to continue servicing a very busy & essential industry.

New owners can be at ease knowing that the existing owners are committed to a smooth transition and are happy to remain involved for an extended period, to ensure continuity of customer relationships and operational knowledge.

An outstanding opportunity to acquire a long-established, highly respected industrial supply business with proven profits, loyal clients and decades of market presence.
