Fast Growing Disability Support Provider for Sale

Established only in 2025, this rapidly growing registered NDIS provider delivers a combination of Supported Independent Living, Community Access, and High Physical Support services throughout Far North Queensland.

The organisation supports a diversified portfolio of participants across SIL and community-based support arrangements, generating strong recurring revenue of approx. \$80,000 p/week through long-term NDIS funded service agreements. Operations are supported by an experienced Disability Services Manager, dedicated administration personnel, and a workforce of approximately 50 support workers, providing a scalable platform with reduced day to day reliance on the founders.

Key Features

- * Annualised revenue run rate exceeding \$4.1M based on current participant portfolio
- * Rapid growth since establishment, with monthly revenue increasing approximately 95% within 12 months
- * Registered NDIS provider with registration approved until May 2028
- * Diversified participant portfolio across SIL and Community Access services
- * Experienced Disability Services Manager supported by established administration systems
- * Workforce of approximately 50 support workers delivering participant-centred supports
- * Strong Referral Pathways Across the Disability Sector
- * Established operational systems, governance frameworks, and scalable infrastructure
- * Significant opportunities to continue expanding participant numbers and service capacity

With recurring revenue, established management, strong referral networks, and a current annualised revenue run rate exceeding \$4 million, this represents a rare opportunity to acquire a rapidly growing NDIS provider at an early stage of its growth cycle.

Due to a change in personal circumstances requiring the shareholders to relocate for family reasons, the difficult decision has been made to offer the business for sale. As a result, LINK Business Brokers is now inviting qualified parties to submit Expressions of Interest to acquire this rapidly growing NDIS provider.

Interested parties are encouraged to contact us for further information and a confidential discussion.
