Industrial Electrical & Water Infrastructure Services Business SE QLD Profit \$1.2m

An outstanding opportunity to acquire a well-established industrial electrical and water infrastructure services business servicing a diversified client base across the mining, oil & gas, local government, water and wastewater sectors.

The business has developed a strong reputation for delivering specialised electrical contracting, automation, instrumentation, telemetry, control systems, pump station upgrades, water treatment infrastructure and ongoing maintenance services. Revenue is generated through a balanced mix of recurring maintenance contracts and project-based works, providing both stability and growth opportunities.

Key strengths include an experienced management team, skilled workforce, long-standing customer relationships, established operating systems and a strong pipeline of future work. The business is strategically positioned to benefit from continued investment in industrial infrastructure, utilities, water security and regional development projects.

This opportunity is ideally suited to strategic industry participants, engineering groups, infrastructure service providers or investors seeking a scalable business operating in essential service sectors with strong long-term growth prospects.

Investment Highlights

- Established and respected market presence.
- Exposure to resilient mining, oil & gas, water and local government sectors.
- Recurring maintenance and support revenue and diversified client base
- Strong forward pipeline of contracted and repeat work.
- Highly skilled workforce and experienced management team.
- Specialist expertise in automation, telemetry, instrumentation and control systems.
- Significant opportunities for geographic expansion and service diversification.
- Well positioned to benefit from ongoing investment in water, wastewater and regional infrastructure projects.
