Established Tutoring Centre with Loyal Client Base and Strong Systems

This is a well-established tutoring and education support business offering English, Mathematics, Thinking Skills, homework support, assessments and exam preparation to local families.

Trading since 2024, the business has built a loyal client base with recurring enrolments and strong word-of-mouth referrals. It is being brought to market due to the current owner's family commitments, presenting a genuine opportunity for a new operator to take over a business with proven demand and established systems already in place.

The business benefits from a trusted brand and strong community reputation built up over its operating history. Consistent demand for tutoring and educational support, combined with a personalised learning model, has delivered measurable outcomes for students and high customer retention through quality service and parent satisfaction.

Established systems, curriculum resources and operational procedures are already in place, meaning a new owner can step into a business that runs on proven processes rather than starting from scratch.

Key Highlights

- * Comprehensive service offering: English, Mathematics, Thinking Skills, homework support, assessments and exam preparation
- * Loyal customer base with strong word-of-mouth referrals from satisfied families
- * Team of 9 part-time/casual staff in place, with day-to-day tutoring delivered by staff
- * Owner's role limited to admin and management, not hands-on tutoring delivery
- * Established systems, curriculum resources and operational procedures
- * Plant and equipment included in the sale, unencumbered
- * Opportunity for growth with relatively low additional capital investment

A new owner has several avenues to grow the business further:

- * Expand student enrolments through increased digital marketing and social media presence

Business Brokers Network
Australia
Broker Ref: 26062

* Introduce additional programs such as coding, STEM, HSC preparation, holiday workshops and online tutoring

* Build stronger partnerships with local schools and community organisations

* Extend operating hours and class offerings to make fuller use of the existing facility

* Explore franchise or multi-location expansion as the business grows

Buyer Suitability

Well suited to an owner-operator comfortable with a management and admin-focused role, since day-to-day tutoring is delivered by existing staff rather than the owner.

Also suited to an experienced operator in the education sector looking to scale an established business, given the systems and growth pathways already in place.

Contact the broker on 0400 440 440 for more information.
