NDIS Registered Provider Multi-Category Approval

An established NDIS provider with registration in nine support categories is available for acquisition. The business is fully registered for the coming years and has established systems in place to support ongoing growth.

Approved registration groups include employment support, life-stage transitions, personal activities, transport assistance, life skills development, household tasks, community participation, plan management, and group/centre-based activities.

The business maintains a complete suite of documentation, including participant and family materials, worker handbooks, contracts, policies, and procedures. Participant and employee resources are currently available in both English and Arabic, with the capability to provide additional translations as required.

Current insurances, including public liability and workers' compensation cover, are in place. Formal approval notifications and registration certificates are available to qualified purchasers upon request.

This opportunity is ideally suited to an existing provider seeking expansion or an investor looking to enter the growing disability services sector with a fully compliant, operational platform.
