Type: **Services-Other**

Established Fire Testing & Compliance Business

An opportunity to acquire a highly regarded specialist fire services testing and compliance business with 25+ years of established operations. Based in Brisbane and servicing clients across the East Coast, the business provides essential hydraulic testing, commissioning, certification and technical services to engineers, fire and plumbing contractors, builders, developers and building owners.

Operating within a highly regulated and compliance-driven industry, the business has developed a strong market reputation and long-standing client relationships, generating significant repeat and referral business. An experienced operational team, specialised equipment and established systems provide a strong platform for an incoming owner, with further growth available across maintenance, servicing and emerging water network modelling services.

Key Business Highlights

- * 25+ years established with a strong reputation in the fire safety and hydraulic testing sector
- * Highly diversified client base
- * Experienced and established team
- * Essential, compliance-driven services supported by Australian Standards and regulatory requirements
- * Broad service offering
- * Specialised vehicles and plant and equipment valued at \$250K+
- * Strong repeat and referral business, with no formal or paid marketing
- * Established East Coast service footprint, with operations extending across major metropolitan, regional and remote markets
- * Significant growth opportunities particularly through expansion of recurring maintenance and servicing

Retirement sale, with the founder open to remaining post-sale to assist with continuity, technical expertise and transition.

An attractive opportunity for an incoming owner or strategic buyer to build on an established market position while capitalising on several clear avenues for future growth.
