Compliant Regional RTO Central QLD Region

This RTO is offering a rare opportunity to acquire a well-established Registered Training Organisation (RTO) with a premium reputation in the high-demand safety, mining, and civil construction sectors. Strategically located in a booming industrial hub, this business has built strong B2B relationships and a loyal corporate client base by delivering critical, compliance-driven training.

- * Location: Strategic Industrial Hub, Central/Regional Queensland
- * Category: Education, Coaching & Training > Registered Training Organisation (RTO)
- * Scope: Fully accredited high-risk work licences, WHS, civil construction, and mining competencies
- * Inclusions: Purpose-built training facility, heavy machinery/equipment assets, and long-term corporate credit accounts

Business Description

An opportunity has arisen to purchase a successful Registered Training Organisation (RTO) specialising in critical safety, compliance, and industrial training. The business operates out of a premier regional industrial economy, directly servicing major corporate entities, infrastructure developers, and individual contractors.

The RTO boasts a comprehensive scope of registration tailored to sectors with mandatory training requirements, including resource management, mining, construction, and heavy logistics. The business model is resilient, built around repeatable corporate safety refreshers, onsite group bookings, and structured high-risk licence certification. Operating from a fully equipped, modern facility designed for hands-on technical assessments, the sale includes all operational plant, heavy machinery simulator assets, and custom learning resources.

Key Investment Highlights

- * High-Demand Scope: Nationally accredited to deliver critical tickets including White Card, Forklift, Confined Space, Working at Heights, and Mining Inductions.
- * Sticky Revenue: Mixed student supply via B2C and a portfolio of approved B2B clients
- * Turnkey Infrastructure: Established regional training grounds fitted with specialized equipment for practical demonstrations.
- * Flexible Delivery Models: Optimised for both institutional classroom learning and high-margin, flexible onsite mobile training deployments.
