An Exceptional Business & Lifestyle Opportunity in North East Victoria

Expressions of Interest are invited for an established Home Hardware Business to be sold as a going concern (GST Exempt) plus SAV.

Own an established and respected hardware business while enjoying the lifestyle of one of Victoria's premier tourism and wine regions.

This established Home Hardware business presents an outstanding opportunity for an owner-operator, experienced retailer, tradie or investor seeking a well-established regional business with a strong local customer base and the benefits of an enviable North East Victorian lifestyle. The business has developed a strong reputation within its local and surrounding community, servicing a diverse customer base including homeowners and DIY customers / tradespeople and builders / property owners and renovators / farmers and rural customers & local businesses.

This is an independently owned, respected & established regional business, with a strong local and repeat customer base / a recognised Home Hardware brand / a diverse product range / established supplier relationships, servicing both retail and trade markets.

New to the hardware industry? That's OK as the current owner is prepared to work alongside the purchaser and will provide hands-on training, guidance and a structured transition period to ensure a smooth handover of the business, along with an experienced and well-trained team of permanent and casual employees. Secure premises & lease opportunity as the business operates from established main street premises, with a local landlord, and importantly, further lease options are available, providing the incoming owner with the opportunity to secure the premises for the longer term.

Now is the time to combine business ownership with an enviable North East Victorian country lifestyle.

Further financial and operational information is available to qualified purchasers following completion of a confidentiality agreement.
