* Significant opportunity to grow through improved sales and marketing

DIVERSIFIED REVENUE STREAMS

The business operates across three complementary areas:

Wholesale Packaging Supplies

A comprehensive range of cartons, bubble wrap, adhesive tapes, plastic bags, pallet wrap, washroom supplies, padded bags, safety equipment, corrugated board, paper bags, strapping and associated products.

Contract Packing

Established contract packing and assembly work, including service kits for major blue chip customers.

Paper Converting

Specialist paper converting services including guillotining, repacking and personalised presentation of copy, parchment, shimmer, marble, photographic and presentation papers.

This diversified model provides the business with multiple sources of income and reduces reliance on any single product or customer category.

IDEAL ACQUISITION

This business would be particularly well suited to:

An entrepreneur/operator with strong sales, marketing and people-management skills who can take an established operation to its next level.

An existing packaging company looking to expand its customer base or establish a stronger presence in Sydney.

A complementary business with spare warehouse capacity that could absorb the operation and create immediate overhead synergies.

THE OPPORTUNITY

This is not a start-up or turnaround opportunity. It is an established, profitable operation with a long trading history, experienced staff, loyal customers, established systems and multiple identifiable avenues for growth.

After more than two decades of ownership, the vendors are now looking to retire and hand the business to a new owner who can capitalise on the foundations they have built.

A genuine opportunity to acquire an established Sydney B2B business with strong recurring customers, diversified revenue streams and significant upside.
