Highly Profitable Southeast Queensland Powder Coating Business Established 42 Years

An exceptional opportunity to acquire a long-established and highly profitable powder coating and sandblasting business operating from a strategically located facility in Southeast Queensland.

The business has developed an excellent industry reputation, a diverse customer base and a proven history of dependable earnings.

- FY2026 sales: $2.39 million

- FY2026 EBITDA after owner's wages: $530,348.93

- FY2026 benefit to a single working owner: $632,851.33

- Owner involvement: approximately 32 hours per week

- Five-day working week.

- Owner currently enjoys approximately seven to eight weeks' annual leave

The business services a broad range of customers across multiple industries, reducing its reliance on any single customer or market sector and supporting a consistent workflow throughout the year.

A key competitive advantage is the business's strategic geographical location and highly efficient dual production-line configuration. This streamlined workflow would support additional production capacity, efficient turnaround times and the ability to accommodate a wide variety of customer requirements.

The plant and production processes have been structured so that operators are not required to be qualified tradespeople. This makes recruitment, training and daily operation considerably more straightforward.

All work is completed in-house, and the business does not require a QBCC or NSW contractor's license to operate.

The business is supported by an experienced team, including several long-serving employees who possess valuable operational knowledge and strong customer relationships.

- Current lease term through to February 2030

- Two further five-year options
