Significant Growth Opportunities

The current owners operate the business as a side hustle and regularly turn down profitable opportunities.

Immediate Revenue Increase: A new, full-time owner can immediately increase yearly turnover by accepting the over half of the opportunities consistently offered by large event organisers.

Interstate & Franchising Potential: The business receives regular inquiries from festival organisers in NSW and QLD, and the highly replicable concept is primed for a franchise model.

Expand Service Model: Introduce smaller, agile setups (tents/trailers) to cover school fairs, local markets, and smaller gatherings that the main bus cannot easily attend.

Corporate Catering: Leverage the professional appearance and premium product to unlock a new, reliable income stream through corporate catering, film sets, and private events.

Next Steps

The current owners will provide 60 days of free training and a detailed handover to ensure a smooth transition.

This is an opportunity to step into a profitable, highly scalable business model that is ready for immediate success.
