WATER JET CUTTING BUSINESS

Established in 2000 this is a precision water jet cutting business providing high quality cutting solutions to customers across a diverse range of industries.

Utilising advanced CNC waterjet technology, they deliver accurate, clean-cut components across an extensive range of materials. The versatility enables them to service customers with diverse manufacturing & fabrication requirements from a single specialist facility.

They have the capability to process an extensive variety of materials including mild steel, stainless steel, aluminium, brass, copper, titanium, marble, granite, porcelain, glass, rubber fibreglass, vinyl & engineering plastics.

The business services a diverse customer base requiring precision-cut components for manufacturing, engineering, construction, architectural, fabrication & industrial applications.

This presents an outstanding acquisition opportunity for a range of buyers seeking a business with the capacity for immediate & long-term growth.

Key Features;

Retirement driven sale providing a genuine succession opportunity.

More than 25 years trading history.

Established client base with recurring work.
