Long-Established Freight Brokerage Business Brisbane

Over 20 Years Established | Approx. \$3M Annual Billings | Highly Systemised | Home-Based

An opportunity to acquire a well-established freight brokerage business operating successfully for over 20 years, with long-term customers and established relationships across its freight provider network. The business is operated from home and requires no warehouse, commercial premises, stock or significant plant and equipment, providing a streamlined and flexible operating model.

Generating approximately \$3 million in annual billings, around 95% of freight movements are managed through the business's automated system, with only occasional manual assistance required. One owner is retiring, while the other is prepared to remain with the business as a part-time or full-time employee if needed, providing valuable continuity across customer and freight provider relationships.

The purchaser position would assume or replace the retiring owner's administration, invoicing and occasional freight booking responsibilities. Ideally suited to a purchaser with transport, logistics or freight industry experience, or an existing industry operator looking for a complementary acquisition.
