

For Sale

Location: **QLD**
Asking: **\$5,500,000**
Type: **Services-Other**

Underground Asset Management & Vacuum Excavation Business | \$4M 2026 Sales | Under Management

This is a rare chance to buy a highly profitable infrastructure services business with a strong position in regional Queensland. Founded in 2008, the business is a leading provider of underground asset management services.

It runs from three branches across the Wide Bay & Central Queensland regions. Its name in the market is built on safety, compliance & quality work & it meets mine-site compliance standards.

The business is fully under management. It has a skilled management team, trained field technicians & documented systems, so the owner doesn't need to be involved day to day. That makes it a good fit for a strategic buyer or an operator looking to expand into a new region.

Strong, growing financials

- FY2026 revenue: \$4,013,663 & adjusted net profit: \$1,607,327 (40% margin)
- FY2025 revenue: \$3,532,366 & adjusted net profit: \$1,188,886
- Revenue has grown more than 80% since FY23

Essential, non-discretionary services

- Underground cable & pipe locating, including ground penetrating radar (GPR)
- Hydro & vacuum excavation (non-destructive digging)
- Surveying & underground utility mapping, as well as Fault finding & leak detection
- Drain cleaning, pipe & culvert jetting, and CCTV pipe inspection
- Equipment hire

Blue-chip, repeat client base

The business has been a preferred supplier for several years to local government, state road & rail authorities, energy & water utilities, major civil contractors & tier-1 mining companies in the Bowen Basin.
