

Busy Cardiology Practice

For Sale

Location: **Sydney**
Asking: **\$1,650,000**
Type: **Health/Beauty**

Established & Busy Cardiology Practice | NSW

An opportunity to acquire an established and well-regarded cardiology practice business in New South Wales, generating annual gross billings of approximately \$2.4 million.

The practice has developed a strong reputation over many years, supported by an established patient base, longstanding referral relationships and trusted connections with local hospitals and general practitioners.

The business- presented exclusively by Joseph Lanzer from JCL Private healthcare business sales- is fully operational with an experienced support team and established systems in place, providing an incoming cardiologist with the opportunity to take over an established, busy and successful operation rather than build a practice from the ground up.

The current owner is a respected cardiologist and is prepared to facilitate a gradual transition, allowing for an orderly handover of patients and referral relationships while helping preserve the goodwill built up over many years.

A long-term lease will be available to the incoming purchaser, providing security of tenure and a stable foundation for the continued operation and development of the practice.

Business Highlights:

- * Approximately \$2.4 million in annual gross billings in the latest financial year.
- * Established cardiology practice with a longstanding operating history.
- * Respected cardiologist with an established professional reputation.
- * Large patient base and recurring demand for specialist services.
- * Longstanding referral sources and relationships with local GPs and hospitals.
- * Experienced support team and established operational systems.
- * Long-term lease to be provided to the incoming purchaser.
- * Owner willing to support a gradual transition and structured patient handover.

* Opportunity to acquire an established specialist practice with existing goodwill and professional relationships.

The Opportunity:

This opportunity may suit a cardiologist seeking to establish or expand an existing practice, or a specialist medical group looking to expand its presence in the cardiology sector.

With established billings, an existing support structure and the current owner's willingness to assist with the transition, the practice offers a foundation for continuity and future development.

Further information will be made available to qualified parties following execution of a confidentiality agreement.

Sale Price: \$1,650,000
