Joinery Spray Painting Business for Sale Padstow | Trained Team, High Turnover & Owner Support

Established Joinery Spray Painting Business Padstow, NSW

High-turnover opportunity with a trained team, established industry connections and a structured transition plan.

An exciting opportunity to acquire a joinery spray painting business based in Padstow, NSW. With three trained staff members in place, relatively low operating expenses and the current owner's commitment to supporting a smooth handover, this business offers an appealing opportunity for an owner-operator, an existing industry participant or an entrepreneur looking to enter the joinery finishing sector.

Key Business Highlights

High Turnover, Lean Operating Costs: A business operating with minimal expenses relative to its turnover, offering an opportunity for a new owner to build on the existing operation. Financial details are available for qualified buyers to review.

The factory is fully set up and equipped for day-to-day operations, including an established spray paint mixing area and the necessary setup to support efficient production. The new owner can take advantage of the existing infrastructure, equipment and trained team, making this an ideal opportunity to acquire a ready-to-operate business without the time and expense of setting up a facility from scratch.

Three Trained Staff in Place: An experienced, trained team is already in place, with all three staff members keen to continue working with the incoming owner, subject to mutually agreed arrangements.

Established Industry Connections: The current owner is willing to introduce the buyer to existing joinery businesses and industry contacts, helping establish valuable working relationships.

Client Introductions: The owner is prepared to facilitate introductions to existing clients, providing an opportunity for the new owner to develop these relationships and pursue ongoing work.

Owner Training and Handover Support: The current owner is willing to provide hands-on training and share operational knowledge to help the buyer take over the business with greater confidence.

Structured Transition Strategy: A transition plan is in place to support continuity of operations, knowledge transfer and the introduction of key business relationships.

Opportunity to Grow: Ideal for an existing joinery, painting or finishing operator seeking to expand, or a motivated buyer looking to acquire an established operation with a team already in place.

A Business Ready for Its Next Chapter

One of the key advantages of this opportunity is the combination of a trained workforce, an existing business network and the outgoing owner's willingness to assist with the transition.

Rather than starting from scratch, the incoming owner has the opportunity to take over an established operation, work alongside the existing team and build on the relationships and foundations already in place.

With relatively low operating expenses, strong turnover and support available from the current owner, this business could be an attractive acquisition for the right buyer.
