Business Highlights

- \$120,000 annual profit under the current management structure, offering an attractive opportunity for a hands-off business owner.
- Up to \$240,000 annual profit potential for an owner-operator, subject to their involvement and operating costs.
- Minimal trading commitment of approximately 1620 hours per week.
- No rent payable, helping minimise fixed overheads.
- Low operating overheads and a streamlined mobile business model.
- Fully under management, providing the potential for income without daily operational involvement.
- Growth opportunities through additional events, private functions, catering and expanded trading opportunities.

The business delivers an appealing dessert offering through a mobile format, providing flexibility to access markets, festivals, private celebrations and other events.

For an hands-off owner, the existing management structure offers the potential to generate income without the demands of day-to-day operations.
